

DIVYA M S

SOFTWARE ENGINEER

Results-driven web developer with expertise in building responsive and dynamic web applications using HTML, CSS, JavaScript, and WordPress. Proficient in developing custom themes, plugins, and integrating third-party APIs to deliver optimized and scalable web solutions. Skilled in database management (MySQL) and version control (Git). Strong foundation in Java and Spring Boot with experience in backend concepts and mentoring in these technologies. Adept at collaborating with cross-functional teams to deliver high-performance, user-centric solutions aligned with client or business goals. Passionate about clean code, agile practices, and continuous integration/continuous deployment (CI/CD). Committed to innovation, code quality, and ongoing learning.
